The Journey Through Cancer & The Seven Levels of Healing®

*A workshop for people living with cancer, their loved ones and friends,
and healthcare professionals.*

Jeremy Geffen, MD

The journey through cancer is a life-transforming experience that often challenges the mind, heart and spirit as deeply—if not more deeply—than it challenges the physical body. Patients, family members and health professionals must grapple with a dizzying array of conventional as well as non-conventional treatment options, while also searching for meaningful ways of embracing the mental, emotional and spiritual dimensions of healing.

In this context, what is the most conscious, empowered and comprehensive response to a diagnosis of cancer? And, how can this be accomplished in the context of modern medicine and modern life?

In this weekend workshop, Dr. Geffen will address these questions and more. He will skillfully guide participants through the seven critical areas of inquiry and exploration encountered by everyone on the journey through cancer—*The Seven Levels of Healing*—and show how they can transform all aspects of the cancer journey.

The Seven Levels of Healing are:

- Education and Information
- Connection with Others
- The Body as Garden
- Emotional Healing
- The Nature of Mind
- Life Assessment
- The Nature of Spirit

Jeremy Geffen, MD, is a board-certified medical oncologist, a pioneer in integrative medicine and oncology, and author of the highly acclaimed book, *The Journey Through Cancer: Healing and Transforming the Whole Person*. He is president of Geffen Visions International and serves as director of integrative oncology for P4 Healthcare and Caring4Cancer.com. He also has more than 30 years of experience exploring the great spiritual and healing traditions of the world. For more information, visit www.geffenvisions.com.
